This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. Finally, the building not being fire-proof, the treasures contained in it were constantly exposed to danger, and thus the necessity of erecting a large fire-proof building became urgent.

When informed of this state of things, Mrs. Anna Woerishoffer, in memory of her husband, the late Mr. Charles F. Woerishoffer, gave twenty-five thousand dollars in aid of a building fund. Within a year after, Mrs. Celine B. Hosack, in memory of her husband, the late Dr. Alexander E. Hosack, left to the Academy the generous bequest of seventy thousand dollars. Thus, with the aid of both professional and lay friends, nearly all the funds required for the contemplated new building were gathered, and several years since the new edifice became free of debt.

The building covers a plot 75 x 100 feet, is five stories high, fire-proof, contains an audience room,—Hosack Hall,—a banquet-room, a stack-room, ample to hold 200,000 volumes, an imposing reference library-room, Woerishoffer Hall, with adjoining journal and reading-rooms, rooms for study, five large rooms for the meetings of Sections and scientific gatherings in general, a conversation room, a reception room and other necessary accommodations. It is evident, however, that what appeared a few years since to be ample accommodations have already become insufficient, owing to the large increase in the membership of the Academy, in the number of volumes in the Library and in the number of those who consult its books and periodicals.

The Academy's publications comprise thirteen volumes of Transactions, four volumes of the Bulletin, and some fifty miscellaneous Addresses, Memoirs, and Reports, copies of which are for sale or will be exchanged for works not already in the Library.

The Library contains over 80,000 bound volumes, about 40,000 pamphlets, and takes regularly over 1,200 current periodicals, comprising nearly all the medical journals, Transactions of Medical Societies, Hospitals, and Boards of Health Reports of value, published throughout the world, and is open free to the medical profession and the public daily from 9 A.M. to 1 P.M. and to the members of the Academy from 9 A.M. to 10:30 P.M.,; Sundays, legal holidays and such portion of the Summer season as the Council directs excepted.

HISTORICAL NOTE.

THE NEW YORK ACADEMY OF MEDICINE was organized in the City of New York on January 6, 1847, and by a special act of the Legislature of the State of New York was incorporated on June 23, 1851. This act was amended on June 4, 1853, empowering the corporators to appoint five delegates to represent them in The Medical Society of the State of New York, with all the powers and privileges possessed by delegates from the respective medical colleges of the State. A supplementary act was passed, June 2, 1877, conferring upon the Academy certain trust powers and privileges.

From the inception of the Academy, one of its purposes has been the provision of a building or hall, where its meetings might be held, where a library and museum could be established, and where the profession could meet on common ground. The efforts put forth in this direction culminated, in 1875, in the purchase of a building, centrally located on Thirty-first street, near Fifth avenue, which was, by the generous gift of a worthy Benefactor, Dr. Abram DuBois, enlarged so as to cover the entire lot, thereby providing a library hall and audience-room, which for a number of years answered the Academy's wants and those of the profession.

In time, however, the opportunities thus furnished proved insufficient. The Fellows of the Academy formed a number of Sections, for special discussions, each of which held a monthly meeting, moreover, medical and other scientific societies not affiliated with the Academy rented its rooms for their gatherings, and thus the accommodations were often insufficient. The library grew steadily in number and value of books and periodicals, etc.; the shelf room was exhausted; the journal and reading-rooms became much too small for those eager to utilize them, for, the library being free to the public during certain hours, the Academy had to supply not only the wants of its Fellows, but also of the profession at large and the public.
